## Foreword

This book contains the records in the divisions and events as specified in the official Water Ski Canada (WSC) Rules.

Anyone who wishes to have a performance recognized as a record should be made aware that the rules, as set out in the official Water Ski and Wakeboard Canada Rule Book, must be strictly adhered to, and that all record applications must be completed in detail within thirty (30) days of the performance.

### **ELIGIBILITY FOR CANADIAN RECORDS**

All persons desiring certification of a record performance must be WSC competitive licenced members with current dues paid prior to the competition.

All persons must be Canadian citizens or must have applied for Canadian citizenship at least six months prior to the date of the tournament in which the performance occurred.

Athletes setting records in the Open or Elite Divisions will have their performances recognized under their age division. World records set by Canadians will be accepted as Canadian National Records.

### **EVENTS FOR WHICH CANADIAN RECORDS ARE RECOGNIZED**

WSC will recognize Canadian records for trick points, slalom performance and jump distances in accordance with the divisions listed in the official WSC Rules.

Canadian National Records may only be set at Record Capability Tournaments sanctioned by WSC or affiliates of the International Water Ski and Wakeboard Federation (IWWF).

Tournaments may be approved as Record Capability Tournaments by applying to WSWC National Office and following the applicable sanction procedures in advance of the applied-for event.

The current age divisions are defined as follows (last revised 2016):
