

## **ROLES & RESPONSIBILITIES**

### **SCORER**

Scorers collect and tabulate scores and post results for the entire event. Scorers are required to set up the tournament on the computer prior to the start of the event.

Requirements: Appropriate level of certification for event  
Arrive prepared with equipment and supplies  
Fulfill role in collaboration with the Chief Scorer

Tournament setup/prior to start of tournament:

- Obtain and record the skiers' birth year, skier identification number, division and events they are skiing in, jump ramp heights and speeds, the tournament locations and site code, and the event sanction id.
- Using scores provided, verify the skiers have met the tournament qualifications for entry. (i.e. minimum scores or placements for entry in the National Championship) and enter "best" scores from the previous 12 months for seeding purposes.
  - In the event there is no evidence of qualifying scores, communicate with the athlete or designate
  - \*In class C tournaments qualifying scores will not be necessary. However previous scores may be used for seeding the skiers in the divisions/events.
- Enter all information in the scoring program.
- Print and post event running orders.
- Print judges scoring sheets for all events.
  - Slalom
    - boat judge, tower judges, gate judges and recap for scorer.
  - Jump
    - boat judge and video measurement judges, as well as running order for the event judges.
  - Trick
    - Running orders for trick timing judge, and trick calling judges.
    - Typically judges will be provided blank sheets of paper to write the skiers name on and the tricks they have observed.
- Print running orders for Chief of Competition, dock starter and when requested for team captains.
- Post running orders near the dock and or skier area.

During the tournament:

- Collect all scores from the judges and input them into the computer system.
- Input names of officials, judges, scorers, boat drivers for each division and event.
- Slalom

- Receive the scores and boat times from the judges after each successful or unsuccessful slalom pass.
- Scorer will then determine the majority score, determine if the boat times are accurate, and input the score and times into the computer system.
- Verify that the skier will continue to the next pass or if they have completed and confirm the score.
- Jump
  - Receive the scores and boat times from the judges after each successful jump.
  - The boat times are checked for accuracy and imputed into the computer system along with the jump distances.
  - If the skier opted to 'pass' on the jump or if they had a 'fall', the scorer will input if the skier fell or passed.
- Trick
  - Receive the trick sheets and timing sheets from the judges.
  - With these sheets, the scorer reconciles the tricks to determine which tricks received credit and which tricks did not receive credit.
  - Along with determining whether the judges have given credit or no credit for the tricks, the scorer will review the timing sheet and place the end of course time where needed.
  - The scorers will input the tricks into the computer system, mark them credit or no credit, and mark where the end of time is.
  - The computer will then calculate the total score for each trick pass.
- If ties occur, the scorer will advise the Chief of Competition that a run off is required
- After each division, the scorer should print the results and post them for the athletes to view.
- After complete trick divisions have finished, the results and trick sheets should be available for the athletes to view outside of the officials area for a period of 30 minutes as identified in the rule book
- Where a Canadian record has been broken, print off the appropriate forms for the athlete.

**Post Tournament:**

- When the event is finished and score input is completed, the scorer must submit all files from the event to WSWC.
- If the tournament is sanctioned as a WRC or WRL files must also be submitted to IWWF.
- At the Nationals, provide recent scores for calculation of the Open event.
- Where medals are being awarded, provide a print out of division and event placements.
